FOR IMMEDIATE RELEASE  
June 5, 2012

### **Commuter Shuttle Now Takes Riders Direct to NYC from Hamburg and Sparta**

Sussexpress is now taking commuters directly to New York City from Hamburg and Sparta, NJ. The service to New York City is expected to begin June 12<sup>th</sup>, 2012. Riders will travel from pickup points along Wheatsworth Rd., 23N, Route 94 and Route 15 directly to 8<sup>th</sup> Ave & 40<sup>th</sup> Streets (opposite Port Authority in front of Times building) in New York City. There are no 'en route' stops. Route details can be found on the website at [www.sussexpressllc.com](http://www.sussexpressllc.com).

Sussexpress has been servicing the Sussex county area for almost two years, and transported riders from Hamburg, Franklin, Sparta, Wantage, Sussex and other townships within the county to Newark Penn Station, NJ. Service is now being expanding to include transportation to New York City. Riders may use the service as needed – daily commuters as well as occasional users are welcome. Many users of the transportation services provided by Sussexpress have utilized the company since it began accepting riders in 2010. To learn more about the services offered by Sussexpress, visit [www.sussexexpressllc.com](http://www.sussexexpressllc.com) or call 1-800-946-4390. Sussexpress takes the hassle out of your travel!

#### **About Us: Sussexpress, LLC**

The idea of having a door-to-door commuter service was born out of the personal experiences from partners. The temporary loss of a vehicle left us using costly rental/cab services, because there was no cost effective and available way to get to public transport without first incurring the cost of a rental/cab. We drove in our cars and then took the train or bus to get to work. Even with free parking, it was usually a hassle to find a spot in time to catch the train or bus so we left home earlier to avoid heavy traffic and filled parking lots.

Feeling sleepy while driving was a scary experience and we saw this happening with many drivers on the road while sometimes stuck in traffic. The increase in cost of gas made our commute even more undesirable. The bottom line was - if we wanted to live in the beautiful family community of Sussex and keep the good paying job, we would have to endure with all of the above. We figured if we can provide a service that can remove the stress and hassle of long commutes to and from work at a competitive cost, it would improve our community in a number of ways: Commuters would have an outstanding travel alternative without the cost of a cab, fewer cars would be on the road decreasing traffic, decreased gas usage and improved air quality...And the bonus?! No multiple stops once we are on the road!

For commuters who work in or visit New York City regularly, should call **1 800 946 4390** or visit the website at [www.sussexpressllc.com](http://www.sussexpressllc.com) for more details.
